

CRAFTING BRAND GUIDELINES

WHO WE ARE

When developing Main Street Auto's identity, my goal was to craft a brand voice that felt personal, trustworthy, and deeply rooted in community. The brand needed to balance a professional, multi-location network with the character of a local shop that customers know by name.

tone of voice

Main Street Auto's tone of voice is friendly, trustworthy, and approachable while maintaining the professionalism of a multi-location network. Crafted to feel personal and easy to understand, breaking down intimidating auto repair talk into something welcoming and clear.
